What's a Municipal Advisor?

"If you think it's expensive to hire a professional to do the job, wait until you hire an amateur."

Red Adair (Pioneered Oil-Well Firefighting)

PROTECTING A MUNICIPALITY'S INTEREST

Following the Great Recession and economic crisis of 2008, the Dodd-Frank Wall Street Reform And Consumer Protection Act was created and passed in 2010. Its intention was to prevent another recession while bringing oversight to regulator gaps in the financial markets.

The Dodd-Frank Act created a new title of "Municipal Advisor" (MA) requiring MAs to be registered with federal Securities and Exchange Commission (SEC).

Municipal Advisors were created by the Dodd-Frank Act to address concerns that the advisors of municipalities were providing important public financing advice without any oversight.

It also requires municipal advisors to hold a **fiduciary duty** to any municipality they advise.

FIDUCIARY DUTY

The advisor has a fiduciary duty imposed by the Securities and Exchange Commission to put the issuer's interest ahead of its own, and all others, which means the advisor must ensure that all aspects of the bond issue favor the issuer.

Naturally there is a balance that must be struck between investor interests and those of the political subdivision, but without an independent advisor on board, the elected officials are left without any independent advice on what that balance should be. Examples of details that must be balanced between investor and issuer best interests include call features, couponing structure, and underwriter compensation.

WHO'S LOOKING OUT FOR YOU?

It is critical to understand that the investment banker / bond underwriter (the bond buyer) has its first allegiance and duty to investors, not the bond issuer. As a result, the bankers are obliged to design the bond issue to first meet investor preferences, and only secondarily to shape the issue to meet the municipality's best interests.

QUOTE FROM A UNDERWRITER'S DISCLOSURE

"...Unlike a municipal advisor, the underwriter does not have a fiduciary duty to the Issuer under the federal securities laws and is, therefore, not required by federal law to act in the best interests of the Issuer..."

The Roles of the Various Professionals in a Bond Issue

Issuer

1. Determine Project Scope
2. Assist with preparation of disclosure data
3. Provide input for financing plan
4. Make rating & Insurance presentations
5. Make bond payments

Municipal Advisors

1. *Assist with the selection of other professionals* required to execute the debt issuance
2. Assist with the preparation of the Official Statement
3. Provide financing plan and structuring advice
4. Provide rating agency preparation assistance
5. Provide bond insurer preparation assistance
6. Provide a supplemental work resource for the issuer's financial staff
7. Report unbiased market assessments and pricing analyses
8. Provide post sale/construction period financial analysis
9. Assist with selection of investment adviser for proceeds
10. Provide on-going market surveillance and notice of refinancing opportunities

Bond Counsel

1. Prepare bond resolution
2. Assist with election documents and calling election
3. Provide Official Statement / disclosure preparation assistance
4. Prepare various deal related legal documents
5. Provide legal opinion to investors

Investors

1. Purchase bonds
2. Receive interest and principal payments from paying agent

Underwriter

Investment Bankers

1. Perform due diligence on disclosure

Proposed Street Work For 2022-2023

(subject to change)

Walnut- Elliott to Hudson	1000/ ton
Terrace-Dead end to Church St	1500/ ton
Roosevelt- Church to Locust	600 / ton
Sherri Ln- Springfield to Hadley	675/ ton
Tyler- Hadley to Springfield	430/ ton
W. Plumb- Carnation to Tyler	175/ton
W. Pearl- Carnation to Tyler	175/ton
W. Elm-Carnation to Tyler	175/ton
Carnation-City Limit to Daniels	900/ton
Plumb-S. Lincoln to W. Elm	825/ton

Total tonnage 6,455/tons

All of this is with the **intentions of having water lines replaced** and working with **Liberty Utilities** on these roads as well as roads in the future to be repaired.

Also, this list is **not set-in stone or any specific order** and can change as I prepare for the bid process and further plans going into the paving season.

We have **many** streets that need attention and my list is extensive but we do our best to continue to chip away and make progress.

I do believe we should do the **Pressure Pave this year 2021** in order to continue with trying to maintain and preserve the streets we already have so I have included last years bid from Donelson Construction. We would need to rebid with them, but this gives an idea of what we are looking at.

I have seen their work and believe it would play a vital roll in helping with my maintenance program.

UPDATE 1- 10/13: The second building has been completed and has been vacant since last fall. We have been in contact with the developer and are happy to report that the developer has a retailer lined up and is moving forward with

finalizing the contracts. We have not been notified who the new retailer is at this time.
